## THE INNSMOUTH CONSPIRACY

Fantasy Flight Games

In the deep, they thrive...

The sight of such endless avenues  
of fishy-eyed vacancy and death,  
and the thought of such linked infinities  
of black, brooding compartments  
given over to cob-webs and memories  
and the conqueror worm,  
start up vestigial fears  
and aversions that not even  
the stoutest philosophy can disperse.

H. P. Lovecraft
